### PROJETS

#### Contact Manager Pro

Developed a Contact Manager web application using **Java**, **Spring Boot**, **Thymeleaf**, and **MySQL**. Implemented a secure, user-friendly interface to manage and organize contacts. The application supports CRUD operations, email verification for user registration, and image handling, including cloud storage for contact profile pictures. **OAuth2** is added for direct sign in through Google and GitHub. Enhanced the backend with efficient database interactions and ensured a responsive frontend with Thymeleaf.
